

ANDARU TRIADI

Fullstack Web Developer | Business Analyst (IT)

[+62-896-6876-4457](tel:+62-896-6876-4457) | andarutr@gmail.com | masru.my.id/project | East Jakarta, DKI Jakarta

SUMMARY

Bachelor's graduate in 2023 from Bina Sarana Informatika University, majoring in Information Technology. Began my career as a Fullstack Developer in 2020. Have worked in educational foundations, service agencies, and Fast-Moving Consumer Goods (FMCG) companies. Committed to product quality and user satisfaction. Transitioned into the role of Business Analyst (IT) in early 2026, where I bridge business strategy and technical execution by transforming client needs into scalable, high-impact solutions.

EXPERIENCE

PT. Seriyus Hutama (Yotek Group)

Jan 2026 - Present

Business Analyst (IT)

- Engage in strategic meetings with external clients across various cities.
- Transform business needs into implementable technology solutions.
- Create efficient technical specifications to accelerate software development processes.
- Oversee system testing to ensure quality, security, and reliability of products before release.
- Maintain and optimize applications for enhanced performance and user experience.
- Analyze and verify data using SQL to ensure accuracy and consistency of information.
- Develop and program Arduino-based products (ATMega 2560, Nano) for industrial applications including barrier gates, CCTV systems, RFID readers, and weighbridge integration.

PT. Prakarsa Alam Segar (Wings Group)
